

## NORAD USNORTHCOM HQs

January 10, 2012

Dr. James Tindall briefed senior officials of NORAD USNORTHCOM today, as well as cooperators from the Joint Interagency Coordination Group (JIACG) on 'Water Security.' Participants included members from the FBI, DIA, ODNI, US Coast Guard, and others. The JIACG is a body of subject matter experts from over 60 different agencies, associations, commands and organizations. The briefing was held at NORAD USNORTHCOM Headquarters on Peterson Air Force Base in Colorado Springs, Colorado. The subject matter included National and Global issues involving water security related to the water/energy nexus; role of counterintelligence; technological, natural, and terrorist/man-made hazards; 7-year forecasts forward utilizing proprietary pattern recognition processes, and the critical role DoD should play in this issue. The presentation received great interest.
